

# MALLA VINODKUMAR

React Js Developer

✉ mallavino95@gmail.com • 📞 +91-6302854600 • 📍 Hyderabad, India • 🌐 Github • 🔗 LinkedIn

## SUMMARY

I have 1.5 years of experience as a React.js developer, specializing in front-end technologies. I am a highly motivated and passionate developer with a strong focus on building quality products and solving complex problems.

## EXPERIENCE

### Software Engineer at HCL Tech

Nov 2023 - Present

Designed and developed responsive UI components using React.js, enhancing user experience and performance. Wrote clean, modular, and reusable code to improve maintainability and efficiency. Identified and fixed bugs, ensuring seamless functionality and high-quality deliverables. Collaborated with designers and backend developers to optimize application workflows and achieve project goals on time.

## EDUCATION

### Bachelors of Technology in Electrical and Electronics Engineering

Aug 2019 - Apr 2023

Vignan Institute of Information and Technology

### Intermediate in Maths, Physics, Chemistry

2017 - 2019

Sri Chaitanaya Junior College

## SKILLS

HTML5 • Tailwind CSS • JAVASCRIPT • REACTJS • REDUXJS • PYTHON

## PROJECTS

### Food App [🔗](#)

A fully responsive food delivery app integrating Swiggy's live API! 🚀 Built from scratch using React, this project focuses on performance optimization, seamless navigation, and a smooth user experience.

### E-Commerce Product Listing Page [🔗](#)

Developed a dynamic e-commerce product listing page with sorting, filtering, and search functionality using React and Context API. Implemented a global cart state for seamless "Add to Cart" functionality. Integrated React Router for smooth navigation across Home, Product Details, and Cart pages. Ensured a responsive and visually appealing UI with Tailwind CSS, enhancing user experience.

### Netflix GenAI [🔗](#)

Developed a movie recommendation platform, **Netflix GenAI**, integrating the TMDB (The Movie Database) API to display movies and utilizing Gemini AI for personalized movie recommendations. Implemented dynamic data fetching, allowing users to explore movie details and receive tailored suggestions based on their preferences. Focused on delivering a seamless and engaging user experience by combining real-time data and AI-driven suggestions.

## CERTIFICATIONS

Udemy Certification in Python Programming - from Udemy

NPTL Certification in Software Testing from NPTL
